GLOSTONE-CARE

Spiritual counsellor

Your daily gestures

Every day

1. Sign in. Open the dashboard.
2. Read the list of followed patients if you need to know who is in which phase.
3. After a meeting, select **New note**.
4. Check the meeting date. It shows today.
5. Tick what was done: counsel, prayer, verse read, discussion, text given, questions and answers. Tick **People did not want to talk** if that was the case. It is a normal outcome.
6. Add free text if you wish, up to 5000 characters. The text is optional.
7. Select **Save**. Wait for "Note saved."
8. Later you can edit or delete your own notes.

Good to know

- The notes list has no link to a patient. Write a name only if you really need it.
- Notes are read by the spiritual counsellors, the promoter and the administrator (read only). Nobody else.
- Saving a note needs the network. The yellow badge stays yellow for your role and says nothing about the network. Judge by what the screen shows.

IF SOMETHING GOES WRONG

Empty list or "0 patients followed": that is the network. Reload and wait. A note will not save: keep the text, wait for the connection and press **Save** again, or keep it on paper and enter it later.

WHO TO CALL

[NAME] [PHONE].
